EDUCATION

Sardar Vallabhbhai Patel Institute Of Technology, Vasad
B.E. in Information Technology

Graduation date: Jul. 2023
CGPA: 8.71/10

EXPERIENCE

INJALA : A Fintech Company | Software Engineer I

Jan. 2023 - Present

- Engineered and optimized several core modules such as Agent Portal Custom Reports and Carrier Portal, enhancing product efficiency and user experience.
- Played a key role in the development of the Kinetic Insurance Software, streamlining the insurance process and integrating email services for real-time communication.
- Took on mentorship responsibilities, guiding interns and freshers through product architecture and code structure, ensuring a smooth onboarding process.
- Trained and mentored a specific intern, helping them understand technical details and successfully integrate into the team.

SKILLS

- | | |
|------------------------|-------------------------|
| • ASP.NET Core MVC | • JavaScript, jQuery |
| • C# | • SQL |
| • Microsoft SQL Server | • HTML, CSS |
| • Azure DevOps | • Mentorship & Training |
| • Team Collaboration | • Continuous Learning |

PROJECTS

Tours and Travels Full Responsive Website

HTML, CSS, JavaScript, PHP, MySQL

- Developed a responsive website for tours and travel agencies, featuring a booking system, package details, and client reviews.
- Implemented a user-friendly interface for seamless navigation and booking.

Billing App

Java, Android Studio, Firebase database, MVC

- Created an Android app for billing with features like GST calculations and PDF bill generation.
- Enhanced functionality to manage and save bills efficiently.

Agent Portal Custom Reports

ASP.NET Core, JavaScript, jQuery, SQL

- Developed a custom report tool for insurance agents that allows dynamic column selection and drag-and-drop prioritization.
- Enabled detailed and customizable reporting based on user needs.

Kinetic Insurance Software

ASP.NET Core, C#, JavaScript, jQuery, SQL, Email Services, PDF services, IronPDF, amCharts

- Designed and implemented Kinetic, an all-in-one insurance management solution that consolidates policy management into a single platform.
- Streamlined processes by replacing multiple outdated tools with a single integrated solution.

Carrier Portal

ASP.NET Core, C#, JavaScript, jQuery, SQL, Email Services

- Developed a carrier portal for insurance carriers to handle quote submissions, reviews, and rejections.
- Improved efficiency in managing insurance quotes and carrier interactions.
